

AFRICAN PRIDE MIRACLE DEEP NO-LYE RELAXERS

Take pride in your hair with African Pride's Miracle Deep No-Lye Relaxer. This innovative relaxer system is infused with 17 Natural ingredients that condition and moisture the hair. Now, every woman can gently, safely and effectively relax her hair while adding both body and sheen. The lye-free, safe formula gives you sleek, straight, silky smooth hair without the harsh properties of traditional relaxers. African Pride offers a variety of relaxers for every hair type. Whether your hair is coarse and resistant to regular perms or ultra fine, African Pride's well-tested formula is a great relaxer system that meets the needs of all hair textures. African Prides' Rosemary and Jasmine Relaxer is perfect for those who suffer from sensitive scalp, yet it is also strong and potent enough to straighten the most resistant of hair types. This relaxer system includes natural ingredients such as Sweet Almond, Jojoba Oil, Rosehips, Olive Oil and Dandelion to help moisturize, soothe, shine and improve the manageability of your hair.

Tips For Perming

- If you plan to perm your hair after the removal of braids or weaves, wait up to two days before applying relaxers. This allows your scalp to rest for a period of time before perming.
- Only apply relaxer to the new growth. Hair can acquire major damage if over-processed.
- Protect sensitive skin areas around the nape of the neck, hairline, hands and ear lobes before relaxing. Relaxers can irritate the skin if not used properly. We suggest wearing gloves to protect your hands and applying a petroleum-based gel to these areas before perming.
- Do not scratch or manipulate the scalp before applying relaxers, as this can cause irritation when applying relaxer.
